NATUR

Laminates and Compacts 2024

MADE FROM NATURE

Designed to seduce, delight and excite your senses. See, touch, feel and enjoy!

Nature shows us transience and new beginnings – and it is precisely the ephemeral character of our environment, which inspires SURFORMA. We endeavour to utilize its qualities in Laminates and Compacts, and thus to kickstart a better, environmentally friendly and more exciting product offer.

Researching and processing new resources: we are convinced that a creative handling of this world-class concept will have a significant influence on the design of tomorrow.

Environmentally friendly fibers for the future.

JUTE

JUTA, known worldwide as “golden fiber” is one of the longest and most used natural fibers for various textile and interior design applications. Jute fiber is 100% biodegradable and recyclable and therefore eco-friendly.

NATURAL JUTE FJUTE

LINEN

Man is being use this resistant and versatile fiber for at least 8.000 years.

LINEN is a 100% sustainable fiber, needs low irrigation and once harvested, its filaments need very little or no chemical intervention. Has excellent pigment absorption and retention, providing an infinite range of wefts and high versatility, both for clothing and decoration.

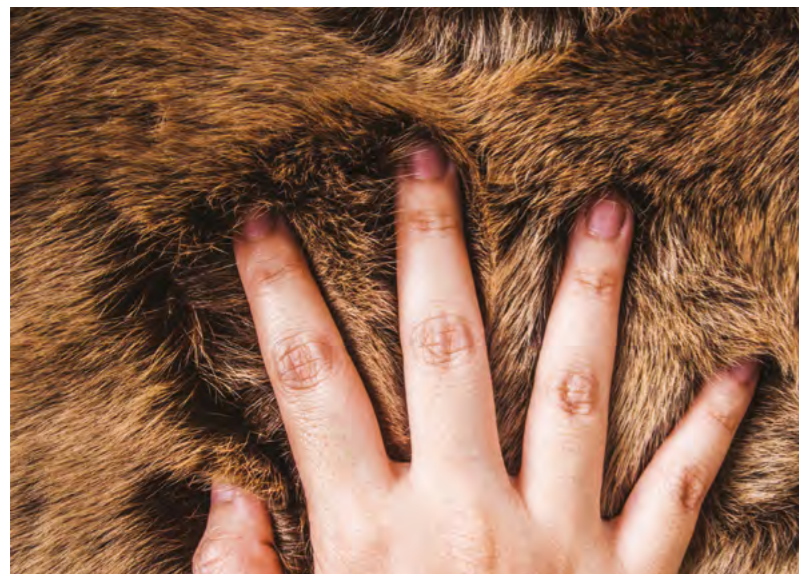

COTTON

COTTON plants grow in hot regions around the world. They produce white flowers, which turn red and then fall off, leaving behind a fruit, known as a capsule. When they mature, the capsules open, revealing the fibers that were contained within.

Since ancient times, cotton has been used in the manufacture of textiles and interior decoration.

The use of SKINS is one of the oldest activities of humanity. 170,000 years ago, our ancestors used the skins of animals they hunted to protect themselves from the cold and heat, as amulets, to create rudimentary musical instruments and even to carry their belongings when they moved.

Tradition and modernity are combined, to create comfort and personalized style solutions.

Nature happily shows its colourful side.

The appeal of familiar timeless neutrals, mineral tones and softer pastels coexists with our desire for nature's blues and greens, warming terracotta shades and spicy mustards.

Moving away from a throwaway mentality to an appreciation of nature and our natural goods – sometimes it just takes an exciting new design object to point us into the right direction.

BIG LEAVES FLV01

Before, now and forever, the materials of nature at the service of man needs and the pleasure of his senses.

Surforma Laminates and Compacts are now part of the game.
